One problem with helicoptering is

that there are virtually no flying clubs, at least of the sort that exist for fixed wing, so pilots get very little chance to swap stories, unless they meet in a muddy field somewhere, waiting for their passengers. As a result, the same mistakes are being made and the same lessons learnt separately

instead of being shared - it's comforting sometimes to know that you're not the only one to inflate the floats by accident! Even when you do get into a school, there are still a couple of things they don't teach you, namely that aviation runs on paperwork, and how to get a job,

including interview techniques, etc - flying the aircraft is actually less than a third of the job. Another is that nobody really tells you anything, either about the job you have to do (from the customer) or how to do it (the company) - you will always be up against the other guy who managed

Scarlett thinks her life is absolutely over. But what she doesn't know is that her life is about to get absolutely interesting, because on her desk in her dorm room she finds a letter. The letter says it contains four truths and a lie -- and Scarlett's reputation depends on determining which is

IF YOU CAN'T BEAT THEM... After living with penis size anxiety for most of his 50 years author, Ant Smith, decided we needed an honest self-help book on the subject. Something to turn up in search results other than
