The first step in antique wood stove identification is determining what type of stove you have. These are some of the common options: Franklin stoves - Designed by Benjamin Franklin in the 1700s, this type of antique wood stove is rarely used today for safety reasons. It's similar to a fireplace insert and often has hinged doors for adding wood.

Antique Wood Stove Identification Guide | LoveToKnow

The most important factor in determining the value of your antique trunk is rarity and style. Louis Vuitton trunks can sell for 3,000 to over 20,000 dollars while a common dome style trunk may only sell for 75 to 150 dollars. Martin Maier (pictured to the left) and any trunks made of all wooden slats command a much higher value and can range from \$500 to \$3,000.

Antique Trunk Values & Information

D. Lawless Hardware is located in the small Midwestern town of Olney, Illinois. Surrounded North, East, South and West by Interstate highways, all an hour's drive away (that's 50-60 miles out here in the sticks for you city folks who drive an hour to work), I like to joke that we are "centrally located in the middle of nowhere".

Antique brass. The Antique Brass finish closely resembles the look of natural brass and has a warm look due to its brown and golden tones. Though Antique Brass stems from the Victorian Era, its high-gloss finish gives it a touch of the modern world. It looks great on any house with stacked stone – think stone fireplaces – and exposed wood.

The ultimate guide to choosing the perfect finish for your ...

A plane, or hand plane, is a device that holds an iron chisel in a fixed position so wood can be evenly removed from the surface of a board. They are used to smooth, thin, and flatten wood, as well as to shape the wood for utilitarian purposes like joints and decorative purposes like edges and molding.
