Sardines may not be the first food that comes to mind when you think of brain health, but these fatty fish are brimming with docosahexaenoic acid (DHA) and eicosapentaenoic acid (EPA), forms of omega-3 fats also found in salmon and mackerel. Flax seeds, chia seeds, walnuts and other nuts and seeds contain omega-3 fats in the form of alpha-linolenic acid (ALA), which the body must then convert to DHA and EPA.
