## **Mini Projects Using 8085 Microprocessor**

Eventually, you will extremely discover a supplementary experience and attainment by spending more cash. nevertheless when? get you understand that you require to get those every needs afterward having significantly cash? Why don't you attempt to get something basic in the beginning? That's something that will guide you to understand even more in this area the globe, experience, some places, next history, amusement, and a lot more?

It is your completely own era to do its stuff reviewing habit.

I am sure you will be mesmerized when you go through this cool projects on the microprocessor. COOL

MICROPROCESSOR PROJECTS 1. Attendance Recorder.

This a cool project where you will be able to count and keep a record of the total no of students present in the class. This is designed with the help of an 8085 microprocessor.
