Some use expert system modules, which enable users to answer questions and receive reliable advice on how OSHA regulations apply to their work site. Some provide guidance information for developing a comprehensive safety and health program and include other recommended practices that often go beyond specific OSHA requirements.

Computer Workstations - OSHA

Crystalline silica is a common mineral found in the earth's crust. Materials like sand, stone, concrete, and mortar contain crystalline silica. It is also used to make products such as glass, pottery, ceramics, bricks, and artificial stone. Respirable crystalline silica - very small particles at ...

Silica, Crystalline - OSHA

OSHA does not wish to have any appearance of discouraging workers from receiving COVID-19 vaccination, and also does not wish to disincentivize employers' vaccination efforts. As a result, OSHA will not enforce 29 CFR 1904's recording requirements to require any employers to record worker side effects from COVID-19 vaccination through May 2022.
