The tendency of migration is very high in rural folks in comparison to their urban counter parts. 3.1.1 Population Composition of Out-migrants

Trends and Patterns of Out-migration from Bihar

PIP: Using a broadened concept of migration, which includes circulatory migration and commuting, this paper maintains that the patterns of outmigration vary a great deal when the level of development of a rural area is treated as an independent variable. This study uses a stratified conditional sample of 192 households selected from 3 areas: 53 households from a low developed (LDL) area, 56 from a medium (MDL), and 83 from a high (HDL).

Outmigration patterns in development transition of rural ...

This is particularly relevant since it represents an important shift from previous patterns of out-migration of rural communities, with consequent abandonment of natural and cultural values. Rural areas that witness the arrival of skilled in-migration movements have experienced the emergence of new types and forms of social interaction and ...
