The goal of academic writing is to convey complex ideas in a clear, concise manner. Don't muddy the meaning of your argument by using confusing language. If you find yourself writing a sentence over 25 words long, try to divide it into two or three separate sentences for improved readability. A vague or missing thesis statement. The thesis ...

One solution: For three items, do only the ?rst two comparisons. A more general solution: Put the choice to the customer as one of order-ing the product, but still only allow pairwise comparisons. In general, creating an ordinal measurement scale based on pairwise comparison is di?cult because of possible inconsistencies.
