Training and Education. According to the U.S. Bureau of Labor Statistics (BLS, www.bls.gov), many stationary engineers learn their trade on the job as apprentices. The International Union of Operating Engineers (IUOE, www.iuoe.org) sponsors several apprenticeships around the United States. Most last about four years, and apprentices earn around 40-60% of the salary of a fully qualified engineer, with regularly scheduled raises occurring throughout the apprenticeship.

What Does a Stationary Engineer Do?

Forty (40) hours per week, a minimum of 8000 hours/four (4) years of on-the-job experience. Classroom supplemental related training two nights a week for 3 hours per night and 670 class hours (minimum) of related training. Passing grade in eight subjects as outlined in the Apprenticeship Standards. Application Process
