Noam Chomsky, The architecture of language (edited by ...

The Parallel Architecture is a linguistic theory in which (1) the generative power of language is divided among phonology, syntax, and semantics; and (2) words, idioms, morphological affixes, and phrase structure rules are stored in the lexicon in a common format. This formalization leads to a theory of language processing in which the "competence" grammar is put to work directly in "performance," and which is compatible with psycholinguistic evidence concerning lexical retrieval ...

Oxford and Cambridge need good design to become "UK's Silicon Valley" say architects. Architects welcome the UK government's plans to build one million new houses between Oxford and Cambridge, but ...

Architecture and design in Oxford | Dezeen

Arguably one of Oxford's most iconic buildings, the Radcliffe Camera (or Rad Cam as it's known by the students) dominates the picturesque cobbles of Radcliffe Square, in the heart of the city. Built in the early 1700s in the English Palladian style, Radcliffe Camera is part of the Bodleian Library, and is the earliest example of a circular library in the country.
