Nikon - Nikon Hong Kong Ltd.

The Nikon D7000 is a 16.2-megapixel digital single-lens reflex camera (DSLR) model announced by Nikon on September 15, 2010. It replaced the D90 as the top end consumer camera, but using much of the technology and controls from the earlier D5000, in a larger more robust body similar to the flagship D300 series. In some ways it was superior to the D300S, though for several years the two cameras ...

The D60 is the third incarnation of Nikon's compact, user-friendly entry-level SLR line that started back in 2006 with the D40 (which replaced the first Nikon 'starter' model, the D50). The original D40 was a hugely important camera for Nikon and can be given a lot of the credit for the resurgence in Nikon's fortunes at the volume end of the SLR market (which had been totally dominated by ...
