Some philosophers of mind have argued that consciousness is a form of user illusion. This notion is explored by Tor Nørretranders in his 1991 Danish book Mærk verden, issued in a 1998 English edition as The User Illusion: Cutting Consciousness Down to Size. He introduced the idea of exformation in this book.

~~The user illusion : cutting consciousness down to size ...~~

Tor Nørretranders writes that "our consciousness is a user illusion for ourselves and the world ... one's very own map of oneself and one's possibilities of intervening in the world." Much of Nørretranders' evidence comes from comparing the wide bandwidth of experience to the narrow bandwidth of consciousness, and from examining how much of our brain function is never consciously acknowledged.
